County Fair Is Scheduled October 13 at Calvert City

MARSHALL County will have a County Fair this year—the first in two decades. The event has been scheduled for October 13 at Calvert City High School, which leaves only 14 days in which to plan and stage the all-day affair.

RAY HALL, energetic agriculture teacher at Calvert, the host community, is taking the lead in working out arrangements—but all county high school agriculture teachers and their assistants are in there pitching with him—Howard Dunnigan of Brewers, Joe P. Duke of Benton, Junior Duke

of Hardin and Mr. Spiceland of Sharpe.

The cooperation of most of the principals also has been assured, along with that of the agriculture units of the county. County Agent J. Homer Miller and his staff, along with Boone Hill and the Farm Bureau, are expected to help in the event.

EMPHASIS this year will be placed on the livestock promotion, but exhibits of all kinds will be held, Mr. Hall said. There will be special exhibits for schoolroom displays—but no prizes, Mr. Hall said.

A meeting was scheduled for Thursday afternoon in the of-

fice of County School Superintendent Holland Rose at which more complete details were to be worked out, and perhaps a few committees appointed.

MR. HALL said he had not contacted any one yet who did not feel the return of the county fair to prominence in Marshall County would be a benefit to the community—both financially and in the matter of civic pride.

"This year we hope to pool the resources of all the school and community fairs in one countywide effort, Mr. Hall said. Next year we'll move to

another community. Eventually we hope to get a permanent grandstand and settle at the county seat for a big, annual event that will go over in a big way."

Mr. Hall and several others interested in the county fair movement have been recalling the days when Marshall County's fair ranked as one of the finest in West Kentucky. "We hope to make it that way again when we really get rolling," he said.

Mr. Hall said the committee hopes to raise \$300 for agricultural prizes at this year's event.

CORN ACREAGE TO BE STUDIED

Survey May Get Support Prices

A SURVEY of the corn acreage of Marshall County is being made by the AAA office to determine if there is sufficient acreage for the county to be reclassified and made eligible for support price on corn.

"At present we are a non-commercial county," John D. Shemwell, chairman of the county Agricultural Conservation Association, explained. "If this survey shows us to be a commercial county, we will then be eligible for the support prices."

"WE HAVE only a limited time to complete this work and due to the fact that so many farmers are on public work, the office will remain open on Saturday, October 1, but will be closed on Saturdays thereafter."

"It is very important that all corn acreage be reported to the AAA office at once," Mr. Shemwell added.

SCHOOL MAKES HEADWAY IN FIRST MONTH

The Fair Dealing School, with 124 pupils, registered 97 per cent attendance during the first month.

Work on the new cafeteria is progressing and school leaders hope to have it finished by tomorrow. Mrs. Henry Downing will be dietitian. She attended the Food Handling School in Benton recently and will be awarded a certificate.

The Parent-Teacher Association met Thursday night, September 22, and appointed committees for purchasing lunchroom equipment. The group has already sold ads for stage curtains and employed the Stringer brothers to paint the scenery. Men of the community contributed their labor in building the stage and cafeteria.

Fair Dealing defeated Aurora in a softball game 15-12 September 7 and in a return game September 21 won 12-4. Dean and June Park have entered school at Fair Dealing after transferring from Olive.

Several visitors attended school the first month, and the teachers said: "We appreciate the interest and cooperation of the parents in their school and community. We want them to feel welcome at all times."

A pie supper is scheduled tomorrow night, September 30, with pies and entertainment on the docket.

IT'S A BOY

Mr. and Mrs. James E. Wadlington of Kuttawa, formerly of Benton, are the parents of a nine-pound boy, William Dennis, born September 23 in the Princeton Hospital. He formerly was a patient with the Health Department here.

PIE SUPPER SCHEDULED AT HARDIN HIGH SCHOOL

A pie supper will be held tomorrow night, September 30, at Hardin High School, with music and other entertainment scheduled.

THINGS ARE never clear in Benton's city election—and this year's no exception. The voting date is November 8. Two slates of officers have been filed, with at least three "overlaps."

LIONS LOSE OUT IN PLAYOFFS

Salem Wins in Game Sunday

After evening things up with Salem in the first game there Sunday by besting the league's best—Andy Rivich—Benton's Lions went down in defeat in the second game and found themselves on the short end of the two out of three series.

The Lions missed the Eastern Division championship by only one game. Taylor pitched the winning game, 7-6, while Jack Jennings, a relative newcomer to the mound, did well in the aftermath, losing 5-2. Both hurlers went the route.

Benton has made the league playoffs for four consecutive years. During the first two seasons of the Twin States League—1946 and 1947—Benton was the powerhouse, taking the championship. Last year the Lions were eliminated by Almo Heights in the playoffs.

STRIKE AGAIN AT CALVERT

Electricians This Time

ELECTRICAL and steel workers are on strike at the Pittsburg Metallurgical plant under construction at Calvert City, where strikes have occurred so frequently during the past year that it is hardly "news" when they happen again.

The electrical workers, who have been drawing \$2 per hour and more, want a 15-cent increase and the construction company offered only 12 cents.

MARSHALL COUNTY BANK DEPOSITORY FOR STATE IN ECONOMY MOVE

The Bank of Marshall County is to be designated as one of 33 depositories for fees and collections of state agencies under an economy program to tighten up the banking procedures of money-collecting state agencies.

The "official order number one" directs all agencies to deposit their funds in certain banks. Money then may be withdrawn from these accounts only after the state finance department audits the claim and the state treasurer issues the check.

Parking Meters to Start Next Tuesday

Workers Make Fast Progress On Installing

Benton's parking meters were being installed this week as workers painted new parking lines and commenced drilling the holes for the pedestals late Monday afternoon.

By this morning all the stanchions were installed, meters were on them, and the work appeared to be moving very swiftly. Chief of Police Neal Owens said that the meters would officially go into operation on Tuesday.

Instead of bumper to bumper parking, which was discussed for a time, the new parking lines have been made more angular, thereby giving more traffic space in the streets with out lessening the number of parking spaces available.

An unofficial check revealed that it required approximately four minutes for digging the hole where the pedestal is to be installed.

Revival to Begin At Walnut Grove

Bro. Elbert Young of the Benton Church of Christ will commence a revival Sunday night at 7 o'clock in the Walnut Grove Church of Christ. Services will continue at least through next week end.

Bro. Hall, who originally was scheduled to open the services, is ill and can't be present.

FISCAL COURT DOESN'T OPENLY OPPOSE METERS

THE FISCAL COURT will not officially oppose the installation of parking meters in Benton, County Judge Java Gregory and County Attorney H. B. Holland said today.

Judge Gregory indicated that the magistrates didn't approve but that investigation of court decisions throughout the county clearly indicated that the county would have no chance to stop the installation legally.

Methodist Charge Quarterly Session Listed for Sunday

The first quarterly conference of the Benton Circuit of the Methodist Church will be held at Mount Carmel Sunday, October 2, the Rev. A. G. Childers, pastor, announced today.

The superintendent will speak at the 11 o'clock service after which the business session will be held in the afternoon. "All members are urged to be present," Mr. Childers said, "since some important matters will be taken up."

A board of Christian Education will be set up and delegates to the district conference will be elected.

LET'S GIVE 'EM A FAIR TRY

(EDITORIAL)

The much-discussed parking meters are being installed.

We'll probably be cussing them as much as the next fellow when we get out of our car and have to drop in a penny for a few minutes of parking space—but we owe it to ourselves to give them a fair try.

We don't enjoy paying taxes—or paying our insurance premiums—or paying bills of any kind, for that matter. But we are used to them and don't complain too much. That's what is likely to happen in the meter situation.

There will be howls...there always are. There would probably be protests even if a man offered to GIVE the city—or the county—\$100,000 outright, with no strings attached. That's all part of the game.

On the surface it may seem hard to justify "charging" a man for parking space when he goes uptown to spend his money. But a great many would be happier to drop a penny or a nickel in the slot and HAVE a place around the square than to drive a block farther.

At any rate it should keep the merchants' own cars (including our own) off the streets so the rural shoppers and the townspeople will have a place. The argument that it will chase business away is a silly one. Chase it where? To Murray? Paducah? Mayfield? They've all got 'em too...and like them! The city budget was framed

more for a town of 1,200 than 3,000 and the purse strings are pretty tight. This extra tax money folks talk about goes for federal and state squandering—comparatively little of it remains at home.

It isn't costing us a cent to install the meters, and if they help ease the Saturday parking congestion, make it easier for country folks to FIND a place (even if it does cost a few pennies), and get some relatively painless and much-needed revenue for the city, who are we to kick? If they don't work we can toss 'em out. But only the most narrow-minded could deny that we should give 'em a fair trial.

\$500 GIVEN TO POLIO EFFORT

Holland Rose Thanks Citizens

MORE THAN \$500 is being contributed by Marshall County in the emergency polio campaign, Holland Rose, chairman, said today. His estimate was based on complete returns including Wednesday, which had reached \$475.56.

Speaking for the Rotary Club, which took the lead in sponsoring the drive, and which is headed by Mr. Rose himself, the chairman said: "We wish to thank the people of Marshall County

SECOND TIME TO BE HERE

2,000 Turned Out For Uptown Event At 1948 Hunt

FOR THE second consecutive year the Kentucky Dam Fox-hunters Association will hold its annual four-day field trials and bench show at Benton—and the big event comes up next week (October 3-6) when dogs, their cages, and their happy owners will be here in the gala occasion.

The hounds must be entered by Monday at 7 p. m., according to Robert Turner of Benton, president; and L. W. Imes of Almo, secretary, of the organization.

THE BENCH show judge will be Yule Wren of Shawneetown, Ill., while Hatler E. Morgan, Benton mayor, will be master of hounds for the second straight time.

"There will be plenty of entertainment for everyone," Mr. Turner and Mr. Imes promised. "It will be truly a hunt that you should not miss."

Cash, trophies, ribbons and prizes will be awarded. A hill-billy songfest sponsored in conjunction with the event last year drew some 1,500 persons to the south side of the court square.

COUNTY SINGING CONVENTION SET

Event on Sunday At Sharpe High

THE ANNUAL Marshall County Singing Convention will be held Sunday afternoon, October 2, at 1:30 o'clock at the Sharpe High School auditorium. Glenn Warren of Hardin, president of the Marshall County Singing Convention, announced this week.

All quartets and singers are welcome, Mr. Warren said. "We hope sincerely to have the biggest convention this year we have ever had. We wish to thank all the quartets and individuals singers who have helped us in the past...we invite them all back, along with any new ones who desire to join us."

LAST YEAR'S singing was held at Benton and drew a good crowd. The one in 1947 drew an estimated 2,000 to Hardin and was hailed as a convention "second only to Big Singing."

Several outstanding radio and religious quartets are expected.

Around The Square

SUE MELTON of Benton Cleaners found the second set of false teeth in the pocket of a man's trousers the other day. They belonged to A. N. Duke, who lost 'em several weeks ago. Naaman went toothless for a spell, avowing that he'd not buy a second pair...the original set would turn up someplace. They did—in his trousers!

LAST YEAR Dena Jones, the Tribune's Altona correspondent, wrote an article saying that labor unions might be cutting labor's throat if regarded in a long-term light. It was interesting to read a release sent to the Tribune this week saying that two veterans, disgusted at the cost of building, invented "a brick-laying machine that steps up the speed of building three to four times its usual rate." Of course the unions may still insist that four men be hired — even though one actually works, with the other three just "standing by" drawing their pay. That's the way musicians have it now.

NOTICED in Sunday's Sun-Democrat where thousands of southern Illinois union men were threatening to stage a "demonstration" against the alleged importation of workers from Texas. Maybe if they'd "demonstrate" more of a willingness to work it wouldn't have happened.

EWING GALLOWAY, who writes the column Kentucky on the March, made a couple of interesting observations last week. He had been criticized for airing some of Kentucky's "dirty linen" — expressing publicly and bring out into the open the fact that Kentucky lags in many respects.

"Folks now realize that these reports had to be given to the people before conditions would ever be improved," he said.

Many states have more than Kentucky "because for a half century Kentuckians in the main have been too smug, too self-satisfied," he said. And that's where all progress stops and stagnation sets in. We agree with Mr. Galloway that we should take pride in our accomplishments—but use them as an impetus to greater things instead of letting "smug, self-satisfaction" set in.

FOLKS SELDOM see Floyd Roberts when he isn't smiling.

THERE'S A LOT of hog wash around these days about keeping the salary limit for state officials down...that no man can be worth more than \$5,000 a year.

If that be the case, then why can corporations afford to hire men at greater salaries? The answer is simply this: It's economical for them to do so because they find that in many cases a higher priced man — one who can DO THE JOB — really saves them money.

Intelligent administration these days is hard to buy for \$5,000 a year—administration of any size, that is.

This week the Tribune received a picture of a beautiful new tuberculosis sanatorium at Madisonville. The building's ready — only it can't be used because the state was unable to find some one competent to run it for \$5,000 a year.

Good Going - But Tough

THE ANNOUNCEMENT in this week's Tribune of plans for a Marshall County Fair is a great source of pleasure to us...and no doubt to the men in the county who are most closely connected with its farming problems—agricultural leaders and the farmers themselves.

No one expects this first county-wide effort in many years to set any records. A few weeks ago the Tribune suggested that it might be well to think about a fair for 1950...but leaders of the agricultural program have shown a willingness to get the ball rolling NOW...not wait a year. And we're 100% behind them in their effort.

IT'S A BIG task they've set out to do—organize, plan and stage a complete county fair in less than a month. Complete? Not in one sense of the word...for there will be many holes to plug...many improvements to make in the fairs of following years.

Mr. Ray Hall of Calvert City, who has done such an admirable job in the Calvert school and community fair, is taking the lead in the '49 venture, which is to be held at Calvert.

IT WILL take a lot of work—and everyone realizes it. But it's a move that should pay dividends later. This year's success—and its mistakes—will give us a pattern on which to improve.

Congratulations to the farm leaders who were willing to go out on a limb to DO something at this late date. They picked up the ball and started carrying it...the same ball others have looked at for many years and have felt that it was too heavy to carry. We'll do our best to be one of your "blockers," fellows...and by working together we should make several first downs even if we don't pile up a big score the first year.

PALMA SCHOOL RATES THROG OF SUPPORTERS

By the 8th Grade Girls

Some 250 persons supported the recent annual pie supper at the Palma School. The gross proceeds from the sale of pies, the black-eyed pea guessing contest, the beauty race and the ugliest boy ballot was \$100.42.

Wendell McGregor, a patron, was auctioneer and did a splendid job selling the pies, which averaged 70 cents each.

Miss Shirley Wyatt of the 8th grade won over Miss Sandra Watkins of the 7th grade in the cake contest for prettiest girl. The vote was 1558 to 1539.

In a chapel talk, Principal Freeman expressed the school's sincere appreciation to the Lowell Bradley school trustee and the patrons for their splendid backing and cooperation in making the Palma school a successful one.

BOYS' CLUB SETS ITS DEDICATION

Is "Bentonitis" A Real Disease?

The Benton Boys Club will officially be dedicated tomorrow (Saturday, October 1) at 2 p. m. The event will be open to the public.

At a meeting last Friday night in their temporary quarters at the City Hall, the boys voted to meet there each Friday night until their new quarters over Riley's Department Store have been completed.

Jesse Marlowe was elected secretary and Lynn Crouch was appointed rules committee chairman to fill vacancies.

One of the purposes of the club, it was said, is to stop the spread of a disease tabbed "Benton-itis," diagnosed as an attitude reflecting the thought that "It can't be done in Benton." The boys have picked as their slogan: "If you can't do it, we can."

SOW BLUEGRASS EARLY, ADVISES CLUB SPEAKER

"Sow bluegrass on land without working up the soil and sow it before September 15," was the advice given by Mrs. Eula Dotson in the major lesson on Landscaping Tuesday, September 20, at a meeting of the Maple Springs Homemakers Club at Mrs. Sam Henson's home.

Mrs. Jess Gregory gave the minor lesson on magazines and pointed out the best magazines to read and their classification.

The club made a contribution to the emergency polio fund.

Refreshments were served to Mesdames Ola Henson, Dan Gold, Jess Gregory, Molly McNeely, Ethel Edwards, Jesse Jones, Java Edwards, Max Wolfe, Eula Dotson, Loman Dotson, and Mrs. Sam Henson, all members, and four visitors—Mrs. Allene Washburn, Mrs. Homer Washburn, Mrs. Ida Gregory and Miss Mildred Hulen.

The next meeting will be in the home of Mrs. Eula Dotson on October 18 at 10 a. m.

ASHLAND OIL'S PLANS PROGRESS

Five Stations
Now at Work

PLANS ARE progressing nicely with setting up the new Ashland Oil Distributorship in Marshall County, Sheriff Walker Myers, head of the new firm, said this week.

Installation of the storage tanks near the Blue Kitchen on North Main Street was expected late this week. A delivery tank truck already is serving five service stations and is filling several other tanks.

The new Ashland stations are operated by E. B. Owens, Marvin Coursey and Clayton Morris in Benton; Bill Watkins at Olive, and Charlie at Cherry Grove on Benton Route 3.

There are several other Ashland stations now served by the Calloway distributor which are expected to be incorporated in the Marshall County chain once things get rolling on a larger scale.

SAY YES FOR YOU and YOURS

It's you, fellow Kentuckian—it's all of us everyday citizens—who suffer because the state constitution limits public salaries to \$5,000 a year.

Because of that limit we can't open our five new tuberculosis hospitals. Doctors with the necessary training and experience can't be had for \$5,000. And so Kentuckians will die and others will sicken, and you and yours and all your kinsfolk and friends will have to run the risk of infection.

Because of the limit, our hospitals for people ill in mind are kept to a care-taker basis. The help that would make useful citizens out of thousands now in custody can't be hired at the 1891 level of pay.

Because of the limit, our whole school system suffers. Who wants to enter a state profession in which the highest officer can earn only \$5,000?

Because of the limit, our colleges and our university suffer, too. They lose men and women to out-of-state institutions. They lose men and women to industry. They feel insecure.

Because of the limit, our public-health program throughout the state is badly crippled, and is being crippled more and more day by day.

Because of the limit the farmer is poorer. Agricultural specialists, research men, conductors of experiments—these aren't attracted to a state that offers them no future. If attracted, they don't stay. The men we do have remain in their positions only out of great devotion to their institutions and their state.

Because of the limit we can't develop and operate our park and recreational system so as to give healthful enjoyment to our own people or so as to attract tourists and get the tourists' dollars.

Because of the limit our highway program is faltering and expensive. We have to engage on a part-time or job basis—at far more than a \$5,000 annual rate—the experts without whose help we just can't proceed.

Because of the limit every service of state itself is limited. Every one is made needlessly expensive in terms of performance.

What we're saying is: Because of the limit, you suffer. You pay. But you don't get full service for your tax dollar. You get a partial, unsatisfactory, expensive, pinch-penny service. And it's your fault, and ours, and every citizen's. It's our fault because we haven't seen earlier that we'd have to remove the constitutional barrier to progress.

At the election November 8 you'll have an opportunity to make a better Kentucky—a better Kentucky for you and yours—by voting for Constitutional Amendment No. 2. It will make possible an adjustment of official salaries. And it will help mightily to cure our ills.

If you want to know more about the working effects of the salary limit, fill out the coupon below. We'll send you, without charge, a booklet that tells the full story. It's honest, it's factual, it's informative.
